Greg is the best when it comes to oil response.

I don't know if I remember Greg Powell...is he good? This oil class is a bit more basic than I was expecting but hey, you always learn something. However, I've done so many oil spills since I'm in R6 I could probably do them in my sleep. I have a 15,000 ft well plugging in the LA bayou so I was hoping they might cover some topics but guess not. Joann told me to talk with Greg, that's why I was asking.
